Listino · Pricelist
23

valdama

Il presente listino prezzi annulla e sostituisce ogni precedente.

I prezzi contenuti nel presente listino sono da intendersi franco fabbrica e IVA esclusa.

Caratteristiche tecniche, colori e decori

Valdama srl si riserva la facoltà di modificare le caratteristiche dei prodotti, anche al fine di migliorarli tecnicamente ed esteticamente, e di sospendere la produzione dei modelli in qualsiasi momento senza preavviso.

Pesi e misure sono da considerarsi indicativi.

Le misure di installazione, riportate nei cataloghi, possono presentare differenze rispetto ai pezzi reali, in considerazione delle peculiari caratteristiche di fabbricazione degli articoli in ceramica.

This price list cancels and replaces all previous ones.

The prices contained in this price list are to be understood as ex-factory and VAT excluded.

Technical characteristics, colours and decorations

Valdama srl reserves the right to change the characteristics of the products, even in order to improve them technically and aesthetically, and to suspend the production of models at any time, without notice.

Weight and measurements are to be considered as indicative.

Installation measurements, shown in the catalogues, can differ compared to the actual pieces, in consideration of the peculiar characteristics of the manufacture of ceramic articles.

Design e prodotti

L'azienda si avvale dell'art direction di Prospero Rasulo, designer e artista con una forte esperienza nel settore del bagno e un personale approccio al progetto che ha orientato fin dall'inizio la strategia di Valdama e la messa a punto di un catalogo innovativo di prodotti. Tecnica e funzionalità sono alla base della filosofia di sviluppo prodotto insieme all'aspetto emozionale e sensoriale della materia e delle sue forme. Luminosità e particolare gradevolezza al tatto sono gli effetti materici salienti che caratterizzano i prodotti Valdama. L'obiettivo è quello di distinguersi nel panorama internazionale del bagno con una personale cifra stilistica capace di dare agli oggetti d'uso, consolidati dal punto di vista tipologico, un respiro più aulico avvicinandoli a diventare dei piccoli capolavori di qualità e armonia quotidiana.

Design and Product

The company takes advantage of the art direction of Prospero Rasulo, designer and artist with a strong experience in the bathroom sector and a personal approach to the project that has guided Valdama's strategy and the development of an innovative catalog from the very beginning of products. Technique and functionality are the basis of the product development philosophy together with the emotional and sensorial aspect of the material and its forms. Brightness and particular pleasantness to the touch are the salient material effects that characterize Valdama products. The goal is to stand out on the international bathroom scene with a personal stylistic code capable of giving everyday objects, consolidated from a typological point of view, a more courtly breath, bringing them closer to becoming small masterpieces of quality and daily harmony.

Le origini

Valdama nasce nel 2005. Fondata da Daniele Vitali, ha sede nel distretto industriale di Civita Castellana ed è specializzata nella produzione di lavabi e sanitari in ceramica di alta qualità. La conoscenza della materia e del know-how di lavorazione del prodotto ceramico è in realtà di lunga data. Si basa, infatti, sull'esperienza ereditata dalla precedente azienda di famiglia – la Varm fondata nel 1979 da Gastone Vitali, padre di Daniele, dedicata alla produzione di piatti e complementi per la tavola di eccellenza artigianale, completamente fatti a mano.

The origins

Valdama was founded in 2005. Founded by Daniele Vitali, Valdama is located in the industrial district of Civita Castellana and is specialized in the production of high quality ceramic washbasins and sanitary ware.

The knowledge of the material and of the know-how of ceramic product processing is actually of long standing. In fact, it is based on the experience inherited from the previous family business - the VARM founded in 1979 by Gastone Vitali, Daniele's father, dedicated to the production of plates and accessories for the table of artisanal excellence, completely handmade.

La produzione

Proprio su questo background Valdama ha costruito le linee guida della sua produzione. Nel suo assetto industriale l'azienda ha mantenuto, infatti, la flessibilità organizzativa e produttiva del modello artigianale, che costituisce oggi un significativo segno distintivo che la differenzia dalle altre aziende del settore.

La possibilità di produrre, di volta in volta, serie limitate di prodotti utilizzando forni di cottura indipendenti e la possibilità di alternare agevolmente gli stampi in produzione, rappresentano due grandi vantaggi in termini produttivi e di mercato che permettono all'azienda di rispondere con una tempistica veloce a richieste specifiche e esigenze speciali dei propri clienti. La cura del procedimento manuale in fase di finitura consente, infatti, di personalizzare colore ed effetti.

Production

On this background Valdama has built the guidelines of its production. In its industrial structure, the company has in fact maintained the organizational and production flexibility of the artisanal model, which today constitutes a significant distinctive sign that differentiates it from other companies in the sector.

The possibility of producing limited series of products, from time to time, using independent cooking ovens and the possibility of easily alternating the molds in production, represent two great advantages in terms of production and market that allow the company to respond in a quick timing to specific requests and to the special needs of its customers. The care of the manual process in the finishing phase allows, in fact, to customize color and effects.

La ricerca

Valdama ha avviato al suo interno un programma di ricerca e sperimentazione volto a un costante miglioramento della qualità del materiale e all'affinamento delle tecniche produttive che permette di realizzare progetti capaci di orientare i trend di design del settore, e di proporre dettagli e finiture inusuali e innovativi. La sperimentazione delle forme nasce sempre da una visione concettuale, dovuta alla formazione artistica e al senso di composizione spaziale di Rasulo, per poi confrontarsi con la tecnologia e rendere possibile qualcosa che prima era impensabile. La ricerca del colore, basata sulla sua conoscenza e il suo skill pittorico, è un altro tassello importante, che ha condotto a realizzare per lavabi e sanitari una gamma cromatica innovativa, sofisticata, in linea con le tendenze più evolute dell'architettura contemporanea. L'obiettivo è di raggiungere una totale esclusività di prodotto e di unicità del brand.

Research

Valdama has launched an internal research and experimentation program aimed at a constant improvement of the quality of the material and the refinement of production techniques that allows the creation of projects capable of guiding the design trends of the sector, and to propose unusual and innovative details and finishes. Due to Rasulo's artistic training and sense of spatial composition, the experimentation of forms always comes from a conceptual vision and then confront technology to make possible something that was previously unthinkable.

The search for color, based on his knowledge and his pictorial skill, is another important element, which has led to the creation of an innovative, sophisticated color range for washbasins and sanitary ware, in line with the most advanced trends in contemporary architecture. The goal is to achieve total product exclusivity and brand uniqueness.

Qualità artigianale made in Italy

L'eccellenza qualitativa è la mission di Valdama. La realizzazione di ogni prodotto mette in campo molta energia e ha implicazioni complesse di cui tener conto: la materia, il lavoro umano, il rispetto per l'ambiente, la responsabilità sociale d'impresa.

Per questo è necessario creare oggetti durevoli, di alta qualità, disegnati e costruiti con passione e con la più attenta cura manuale. Manufatti unici e speciali capaci di raggiungere il livello più alto di quell'artigianalità tipicamente italiana che il mondo ci ammira.

Made in Italy artisan quality

Quality excellence is the mission of Valdama. The creation of each product requests a lot of energy and has complex implications to take into account: material, human work, respect for the environment, corporate social responsibility. That's why it is necessary to create durable, high quality objects, designed and built with passion and with the most careful manual care. Unique and special artifacts capable of reaching the highest level of that typically Italian craftsmanship that the world admires.

Ecologia e sostenibilità

Valdama ha intrapreso negli ultimi anni un processo evolutivo di trasformazione del processo produttivo secondo la visione ecologica e sostenibile per ridurre l'impatto e il consumo energetico complessivo e l'emissione di CO2. Il forte investimento realizzato per sostituire gli impianti di produzione è stato completato a fine 2020 con questi grandi interventi:

- Sostituzione del forno principale di cottura con un altro di concezione estremamente moderna con tiraggio rovescio che consente risparmi di consumo di metano sino al 30% di quello consumato precedentemente, con qualità migliore del prodotto. Ogni metro cubo di metano risparmiato riduce il quantitativo di gas serra emesso di 1.8 kg. Sulla base del consumo annuo del forno si ha una riduzione di emissione di CO2 pari a 350 tonn/anno.
- Installazione di un impianto fotovoltaico da 157,08 kW in grado di produrre 199617 kWh annue con riduzione di emissione di CO2 (gas serra) pari a 60 tonn/anno.
- Sostituzione delle lampade esistenti con corpi illuminanti LED ad alto rendimento per ridurre il consumo energetico e quindi di generazione di CO2, che consente un risparmio annuo di 57.000 kWh pari a 18 tonn/anno di gas serra
- Sostituzione delle due stazioni di compressione dell'azienda con compressori ad alto rendimento ed a giri variabili per copiare le necessità effettive dell'azienda, senza dissipazione di aria in eccesso.

L'evoluzione degli impianti dell'azienda si traduce complessivamente oggi in una minore emissione di gas serra in atmosfera di oltre 440 tonnellate annue

Ecology and sustainability

Valdama has undertaken in recent years an evolutionary process of transformation of the production process according to the ecological and sustainable vision to reduce the impact and overall energy consumption along with the emission of CO2.

The strong investment made to replace the production plants was completed at the end of 2020 with these major interventions:

- *Replacement of the main cooking oven with another of extremely modern conception with reverse draft which allows savings in methane consumption up to 30% of that consumed previously, with better product quality. Each cubic meter of methane saved reduces the amount of greenhouse gases emitted by 1.8 kg. Based on the annual consumption of the oven, there is a reduction in CO2 emissions of 350 tons / year.*
- *Installation of a 157.08 kW photovoltaic system capable of producing 199617 kWh per year with a reduction in CO2 (greenhouse gas) emissions of 60 tons / year.*
- *Replacement of existing lamps with high-performance LED lighting bodies to reduce energy consumption and therefore CO2 generation, which allows an annual saving of 57,000 kWh equal to 18 tons / year of greenhouse gas*
- *Replacement of the two compressor stations of the company with high-performance and variable speed compressors to copy the actual needs of the company, without dissipating excess air.*

The evolution of the company's plants today translates into a lower emission of greenhouse gases into the atmosphere of over 440 tons per year.

La semplicità,
qualunque essa sia,
è una conquista

Whatever form
it may take, simplicity
is an achievement

Complementi

Furnishings

Strutture Cameo

design by
Prospero Rasulo

Simile a una fusione d'arte, l'elegante struttura in metallo verniciato è realizzata artigianalmente. Completa e arricchisce le molteplici ambientazioni dei versatili lavabi della Collezione Cameo.

Similar to a fusion of art, the elegant painted metal structure is handcrafted. It completes and enriches the multiple settings of the versatile washbasins of the Cameo Collection.

Rimless

L'introduzione del nuovo sanitario Rimless rafforza l'estetica del prodotto aumentandone le prestazioni funzionali, l'igiene e la facilità di pulizia.

La nuova generazione di sanitari Rimless è senza brida, cioè l'incavo da cui fuoriesce l'acqua per lo scarico del wc.

Nel sistema Rimless l'acqua viene incanalata grazie ad un piccolo solco sottosquadra presente all'interno del vaso e il flusso segue un percorso prestabilito che consente di avere un risciacquo integrale dell'intero vaso, senza spruzzi e in modo molto più silenzioso.

The introduction of the new sanitary Rimless strengthens the aesthetics of the product increasing its performance functional, hygiene and ease of cleaning.

The new generation of Rimless sanitary ware is without Brida, that is the recess from which the water comes out for the toilet discharge. In the Rimless system water is channeled thanks to a small undercut groove present inside of the vessel and the flow follows a predetermined path that allows you to have an integral rinse of the entire vase, without splashing and so much more silent.

valdama

Cyclonic Flush®

Con la tecnologia Cyclonic Flush® lo scorrimento dell'acqua a vortice, grazie all'accurata modellazione della vasca che agevola il decorso dello scarico in modo uniforme, garantisce una pulizia ottimale e totale con 4,5 litri d'acqua, ed è estremamente silenzioso durante la fase di scarico. La tecnologia Cyclonic Flush® è proposta sui WC IL a terra e sospesi.

With the new technology Cyclonic Flush® the water vortex flow ensure an optimal cleaning with 4,5 lt water and is extremely silent during the discharge, thanks to the accurate modelling of the tank that facilitates a smoothly water flow. The new technology Cyclonic Flush® is available on the floor mounted and wall-hung version of collection IL.

CONDIZIONI GENERALI DI VENDITA

DISPOSIZIONI GENERALI Alle vendite di Valdama srl si applicano le condizioni di vendita sotto riportate che con il suo ordine il Committente si impegna ad accettare. Qualsiasi deroga dalle condizioni generali d'acquisto può avvenire soltanto con il consenso scritto di Valdama srl.

CONSEGNE La spedizione della merce s'intende franco fabbrica; il termine di consegna convenuto si basa sulla situazione di magazzino al momento dell'ordine; la merce viaggia a rischio dell'acquirente e Valdama srl non risponde dei danni o dello smarrimento della merce. Al momento della consegna e prima dell'accettazione il destinatario è tenuto a verificare la merce onde verificare eventuali danni che devono essere segnalati al trasportatore e di conseguenza all'Azienda. Valdama srl non si assume nessuna responsabilità in caso di ritardi nella spedizione e/o nella consegna della merce. Ogni reclamo dovrà essere presentato presso Valdama srl entro otto giorni dal ricevimento della merce. Non verranno accettate richieste per danni e/o interessi di mora per ritardi di consegna.

PESI E DIMENSIONI I pesi e le dimensioni degli articoli in ceramica sono sottoposti a leggere variazioni e devono intendersi approssimativi; le quote di cantiere, riportate nel catalogo o nei dépliant, possono presentare lievi differenze dovute alle tolleranze di fabbricazione degli articoli ceramici.

GARANZIA Valdama srl garantisce la qualità del prodotto e si impegna a sostituire eventuali pezzi difettosi entro due anni dalla consegna; qualsiasi difetto deve comunque essere segnalato prima dell'installazione. La garanzia Valdama consiste nella sola sostituzione della merce fornita, senza aggravio di costi aggiuntivi derivanti dalla messa in opera. La merce difettosa deve essere conservata per essere esaminata da parte del personale Valdama che disporrà della sostituzione degli articoli contestati o concederà una riduzione di prezzo.

FORO COMPETENTE Sede competente per ogni controversia è il Foro di Viterbo.

I prezzi si intendono al netto di qualsiasi tipo di tassa o dazio.

Materiale reso franco fabbrica

Pesi e misure sono da considerarsi indicativi, per schede tecniche di installazione e dime di scasso rivolgersi direttamente all'azienda o sul sito www.valdama.it

Questo listino annulla e sostituisce i precedenti

Allo scopo di migliorare la propria produzione Valdama srl si riserva la possibilità di variarne in ogni momento e senza preavviso le caratteristiche tecniche, di funzionamento e formali.

GENERAL CONDITIONS OF SALE

GENERAL RULES All sales and services provided by Valdama srl are subject to the following terms and conditions that the Client accepts. These terms and conditions may be modified only by written agreement of Valdama srl.

DELIVERY The mode of transport is EXW; ETD is based on warehouse situation when the order is received. The transport of goods is on Customers responsibility, Valdama srl cannot accept any responsibility for damages or miscarriage of the goods. At the time of reception and before the acceptance, the buyer has to check the goods in order to verify any transport damages that have to be reported to the Carrier and then to the Company. Valdama srl does not have any responsibility for delays in shipping and/or in delivery. Any claim must be submitted to Valdama srl within eight days from the reception of material. Valdama srl will not accept any request for damaged goods and/or overcharges for delays in delivery.

WEIGHT AND SIZES Weight and sizes of ceramic items can be subject to little variations and therefore must be intended as approximate; the technical drawings with dimensions, included in our catalogues and leaflets, can be subject to small differences due to the tolerance that ceramic items can have.

WARRANTY Valdama srl guarantees the quality of the items and is committed to replace the defective items within two years from the day of reception of material; any defect has always to be declared before the installation. Valdama's warranty consists in the replacing of goods, without incidental expenses due to the installation. Each defective item has to be stored in order to be examined from Valdama' staff that will decide about replacing of claimed items or about discounting the price.

The court of justice in charge of any dispute is the Court of Viterbo.

The prices are VAT and tax excluded

Delivery terms on EXW.

Weights and sizes are to be considered as indicative.

For technical and installation sheets, and DWG refer directly to Valdama srl or www.valdama.it

This price list cancels and substitutes the previous ones.

In order to continue to improve its products, Valdama reserves the right to alter without any prior warning the technical, formal and functional features.
